

SEMINAR

Europe's future Research and Innovation policy

Thursday, September 7th, 2017 – 9:15 to 16:00

France Stratégie
18, rue de Martignac - 75007 Paris

PROGRAMME

9:15 am REGISTRATION AND COFFEE

9:30 am WELCOME

Michel YAHIEL, France Stratégie

Kurt VANDENBERGHE, European Commission

10:00 am SESSION I
**Europe's future R&I policy –
Visions and values**

What is the role of Research and Innovation for the future of Europe? What future do we want for European R&I in view of 2030? How can the EU be more responsive to its citizens' needs with a policy of Open Science, Open Innovation and

Open to the World? How can the EU and National policies respond to societal challenges and the global Sustainable Development Goals?

Chair: Denis DESPRÉAUX, MEIRIES

Introduction

Alain BERETZ, DGRI/MESRI

Pascal COLOMBANI, Valeo

Luc SOETE, EU Expert

Kurt VANDENBERGHE, European Commission

Discussion

11:15 am COFFEE BREAK

11:45 am SESSION II
Towards a Mission-oriented
R&I policy?

How can Research and Innovation be more results-oriented, responding to the needs of citizens? To what extent do we need to switch to a Mission-oriented R&I policy? How should such missions be identified? What would a mission-oriented and innovation-driven EU policy agenda imply for R&I instruments (design, investment and funding)? How should regulation and innovation interact? Is there scope for further synergies between the EU R&I framework programme and Structural Funds? How should progress towards the missions be monitored?

Chair: Andrea RENDA, EU Expert

□ Introduction

Luke GEORGHIOU, EU Expert
Georg LICHT, EU Expert
Patrick LLERENA, EU Expert
Michael MATLOSZ, Science Europe and Académie des technologies
Laure REINHART, Bpifrance

Discussion

01:00 pm WORKING LUNCH

02:00 pm SESSION III
Europe's R&I – Excellence and impact

How to focus on excellence to improve performance in terms of research and innovation? How to apply this requirement not only for science and technology but also for other dimensions of innovation (business methods, social innovation, etc.)? What consequences for allocation of resources, development of instruments, simplification of procedures and regulations? How to better articulate the different levels of public action (regional, national and European)? How to better involve all stakeholders?

Chair: Frédérique SACHWALD,
Observatoire des Sciences et Techniques /
HCERES

□ Introduction

Alain FUCHS, CNRS
Jean-Luc BEYLAT, Nokia and Association des pôles de compétitivité
Delphine MANCEAU, EU Expert
Daria GOLEBIEWSKA-TATAJ, EU Expert
Francisco VELOSO, EU Expert

Discussion

03:30 pm CONCLUDING REMARKS

Jean-Philippe BOURGOIN, private office of the minister of Higher Education, Research and Innovation
Luc SOETE, EU Expert
